SUMMARY

I love developing and teaching about fullstack applications.

SKILLS

Proficient: JavaScript, React/Redux, Express/Node, Sequelize, Postgres, React Router
Knowledgeable: HTML, CSS, Git/Github, NPM
Familiar: TypeScript, MongoDB, Jenkins, Babel, Webpack, Mocha, Chai

PROJECTS

Account Credit V2
Pampered Chef
- Technologies: TypeScript, Angular, Express/Node, Mongoose, MongoDB.
- Built a back-end REST API that allows integrated applications to manage customer account credit.
- Implemented an Angular component to display account credit transaction history, used by Pampered Chef's customer support and consultant workers.

EMPLOYMENT

Web Development Instructor   02/2022 – Present
Fullstack Academy   *New York, NY*
- Co-instruct and mentor a cohort of over 20 students at a time on topics in full stack web development. I teach, review, and test curriculum updates for: Javascript, Express/Node, Postgres, Sequelize, React/Redux, and various software development concepts and methodologies.
- Lead code reviews for two different Software Engineering teams following an Agile workflow in two-week sprints. Support students' in technical decision-making while ensuring coding best practices.
- Host cohort help desk every day to provide guidance for software development questions. I resolve a minimum of 15 help tickets every day.

Software Engineer   01/2021 – 02/2022
Pampered Chef   *Addison, IL*
- Migrated monolithic internal applications used for sales consultants into modern MEAN stack micro-services.
- Support many services integrated with "Consultant's Corner", Pampered Chef's consultant-facing application, used daily by 90,000+ consultants in five different countries.

Teaching Fellow   09/2020 – 12/2020
Fullstack Academy   *Chicago, IL*
- Fixed more than 25 help tickets in a week relating to students' labs, workshops, and class projects.
- Hosted office hours to help students achieve mastery of: JavaScript, React/Redux, Node/Express, Postgres, Sequelize, RESTful routing, Data Structures and Algorithms.
- Led learning team lunches weekly as a way to encourage student collaboration and networking while gauging their understanding of class material.

Application Developer   06/2019 – 06/2020
Zurich Insurance Group   *Schaumburg, IL*
- Created integrated design documents to outline technical details of new services.
- Collaborated with Systems Analysts and Engineers to determine technical requirements used to migrate Zurich's legacy systems into Guidewire's Policy and Underwriting software.

EDUCATION

Software Engineering Immersive   05/2020 – 09/2020
Fullstack Academy   *Chicago, IL*

Bachelor of Information Technology   08/2014 – 05/2019
Illinois Institute of Technology   *Chicago, IL*
